The Advancing EDII Fund Application

This program provides support for equity, diversity, inclusion, and Indigenization (EDII) capacity development within astroparticle physics and related disciplines. Funding of up to $1,000 CAD (Stream 1) and $2,500 CAD (Stream 2 & 3) per initiative is currently available to offset the real costs to applicants who seek to enhance EDII in their training and research environments.

Part A: Applicant(s) Information

Lead Applicant(s)	
Department contact (name/email, if lead applicant(s) do not hold an institutional account)	
Applicant Address	
Applicant E-mail (institutional)	
Applicant Home Institution	
Name of student group, lab or research group, collaboration requesting funds (if applicable)	
Home Faculty and Department	
Current Role	
Application Stream (i.e., Stream 1, 2, or 3)	
(if Stream 3 indicated, which DEAP Tool Goal are you striving towards)	
Title of the Initiative	
Funding Request ($)	

Part B: Proposal

1. Describe the initiative proposed and please include (max 300 words):
   a. **What** is the problem or barrier you are attempting to address within astroparticle physics and related disciplines?
   b. **Who** is the intended audience/participants?
   c. **Where** and **when** will the initiative take place?
   d. **How** will the initiative enhance a sense of belonging to an inclusive culture in astroparticle physics and related disciplines?

2. What actions will be taken to ensure the initiative is accessible and inclusive (max 200 words)?

3. Are you collaborating with any individual(s) or group(s) to enhance the success of the proposed initiative? If so, please share how you're working together (max 200 words).

4. What are the desired outcomes and methods of measuring the success of the initiative (max 300 words).

5. What will happen post-initiative to sustain impact (max 300 words)?

6. Proposed Budget and Budget Justification: Please attach the Advancing EDII Fund budget template with your proposal and include your budget justification in the description section.
